Quadrilateral barrier in extendable anharmonic aluminium to circumscribe the area of intervention during the work phases. It protects pedestrians and creates transit corridors.

**Lightweight, easily transportable and fully foldable**, it can also be placed inside company vehicles with reduced load capacity. Coated with R2 reflective film for maximum visibility and durability. The accordion system requires little space during transport and storage.

Available in two versions:

- 120x120 cm
- 180x120 cm
