

# KEY HANDLE

FOR EVERY TYPE OF HOOKING

Key Handle is a handy and durable manhole cover lifter handle suitable for opening small manhole covers, such as those for gates and valves or different types of grates and manholes.

The tool is made of electrolytically galvanized carbon steel and is extendable to improve ergonomics when lifting the load. The handle is lined with neoprene for a soft and secure grip.

Thanks to the universal Valifter attachment, the interchangeable VS Keys series can be quickly attached to Key Handle.

The device is supplied inside the material case.

*Key Handle complies with the provisions of Machinery Directive 2006/42/EC, Atex Directive 2014/34/ EU and further harmonized standards, for use in ZONE 2.*
