

PVC BARRIER

BARRIERS AND ROAD SIDE

VALIFTER

BY FEDA

PVC BARRIER CHARACTERISTIC

Dimensions: 170x2,6x100 cm

Weight 4,1 Kg

High visibility barrier in PVC and polyester composed, modular and extensible: infinite single units can be added to the three initial modules.

Lightweight, easy to carry and install. The barrier is essential to delimit work areas, make danger zones visible and protect pedestrians from accidental falls.

Customizable with company logo.
