

VS KEYS

FOR EVERY TYPE OF HOOK

Specially designed for quick and effective use, the VS series keys are used together with the **Simplex manhole cover openers** and the **Hook 60 mechanical bar**.

The six types of keys are compatible with almost all the attachment points of the manhole covers. For special hooking slots **VALIFTER** can perform with ad hoc keys. All fittings are supplied with kit of accessories.

Kits include, depending on the equipment, the combined keys to perform the tightening, the spatula and the slit cleaner useful for cleaning operations and the case for the organized transport of the keys.

KEYS	DESCRIPTION	DIMENSIONS (CM)	USEFUL RIDE (CM)
